# Argus Select Fund: CONSERVATIVE

# Fund Objective

Preservation of capital with significant exposure to fixed income. There will be some exposure to equities to reduce overall portfolio risk and to provide a modest growth of capital.

# **Investment Philosophy**

We focus on obtaining the proper strategic allocation as this is the best way to achieve long term expected returns. Since market conditions change over time, the assumptions used to develop the long term strategic asset allocations are regularly reviewed.

To implement the strategy we have engaged high quality, institutional managers whom we have thoroughly researched.

# **Investment Process**

Our investment process combines passive strategies, which minimize costs and variance from target returns, with active strategies to create the opportunity for superior results. We create portfolios of high-quality managers whose risk/return profile fits with our overall portfolio objectives. In selecting underlying managers, our central tenets are:

- Ensure managers have a clear investment process
- Provide vigilant oversight of investment managers
- Manage risk through diversification
- · Minimize overall costs
